Design Your Own Pace Learning System

Build your own Pace System! Select from nearly 300 self-paced tutorials in all core academic areas. Mix and match lessons by subject area, reading level, or test standard, including highly-customizable testing and learning management materials.

- Targeted remediation with TABE®, GED®, HiSET®, and CCRS, or using Pace diagnostic and mastery testing. Pace systems are designed to adapt easily to any test standard or educational framework.

- Truly self-paced, in-depth lesson tutorials designed specifically for adult and adolescent learners in basic education programs. Pace instruction is ideal as a remedial supplement for pre-HSE and HSE preparation.

- Choose from nearly 300 lessons at 2nd-9th grade reading levels in all core academic areas. Multiple forms of Mastery Testing available for each lesson topic, aligned to the instructional text.

- Simple, structured resources that are easy to use with volunteer teachers, aides, and tutors.

Pace basic skills systems have been applied successfully for over 40 years, in a wide variety of basic education settings. Pace tutorials allow for truly self-paced education through a unique, “programmed” instructional format. Visit us online at pacelearning.com to view virtual sample materials and learn more.

I have found the (Pace) materials to be wonderful for dependent learners, students with fluctuating schedules, and more methodical learners...these students need the step-by-step instruction at which Pace Learning is so good.

I have noticed that using the Pace system helps them build their self-image as learners.

~Adult Educator, Fannin, GA

We have used PACE for about 16 years and see ‘miracles’ all the time...

My students love the system because they feel as if they are in control of their learning experience.
